ACE Capabilities Successfully Implemented on July 12

U.S. Customs and Border Protection (CBP) continues to work on development of core trade processing capabilities in the Automated Commercial Environment (ACE) to decommission corresponding capabilities in legacy systems by the end of 2016. On July 12, 2014, the first release of Deployment D was deployed. Features with this recent deployment include:

Unified Filing of Cargo Release and Importer Security Filing (ISF) Data	ACE will allow filers to submit ISF data together with their Cargo Release/Entry data on the same record
Entry Summary System Validations	<ul style="list-style-type: none"> - Informal Entry Restrictions - Charges Restrictions - Taxes - Other Fees

For additional information, please review the [Information Notice of ACE Capabilities for Trade Users: July 2014 ACE Deployment D](#) which can be accessed from the [ACE Features](#) page of CBP.gov.

FINDING MPF, HMF AND ACE ENTRY SUMMARIES WITH POST SUMMARY CORRECTIONS (PSC) IN ACE REPORTS

MPF and HMF

CBP has enhanced ACE Reports to include new data objects for Merchandise Processing Fee (MPF), Harbor Maintenance Fee (HMF) and Other Fees for the ESM – 10002 Entry Summary Universe. ACE users may now modify any standard report from the Entry Summary Trade Sub-Sub Folder of ACE Reports and add the new data objects (to include itemized amounts of MPF, HMF and Other Fees) reported at the detail line level of an ACE entry summary. The three new data elements are classified as measures, which may be used in calculations and are identified by a gold ruler icon inside the universe outline panel. To select any of these newly added data objects available in Entry Summary reports, please click on the following class sub-folders in the universe outline panel when modifying ACE reports:

- Financials
- Collections

ENTRY SUMMARIES WITH POST SUMMARY CORRECTIONS

To easily identify ACE entry summary transactions containing Post Summary Corrections (PSCs), filers can modify any standard entry summary report from the Account Management (AM) and Entry Summary Management (ESM) folders or customize a new report from the AM and ESM Universe with PSC data elements. ACE Reports provides users the following PSC data objects listed below the respective universe and class:

Universe	Class	Data Objects

FREQUENTLY ASKED QUESTION

Can I run ACE reports to capture entry summary transactions where I am listed as an Ultimate Consignee?

No, the security features built into the ACE Secure Data Portal allow only an importer of record or entry summary filer to view transaction data through ACE Reports.
